# Welcome

Thanks for using EaseUS Video Downloader.

When you are trying to enjoy some good video online, slow internet connection might be annoying. And it would be a good solution to download them to your local computer. And now we will introduce a stable and hassle-free video download tool, EaseUS Video Downloader.

The software allows to search and download videos from several streaming or movie websites, including YouTube, Facebook, Vimeo, etc. Here you can find the detailed tutorials about how to use EaseUS Video Downloader.

# Activation

The Trial version allows to download up to 5 videos. To break the limitation and download more, please make the purchase and activation the software.

# **Quick Search**

With millions of videos on the internet, it can be difficult to find the right one. EaseUS Video Downloader provide a search function so that you can find the videos quickly.

### **Commonly Use Website List**

The software shows a quick access list of the commonly used websites. You can delete from the list by clicking X, or add new ones by clicking +.

#### **Download Video by Search**

To search the videos online, please click the website you want to search from, and input the video name. It is like searching videos using a browser, and you are able to use the filter features seamlessly. Once locating the wanted videos, just start the download with one click.
